

Publishing Your Workshop Presentation in “Experimental Astronomy” (refereed)

I will act as a guest editor for a special edition of Experimental Astronomy journal (Springer) containing submissions based on the workshop. The intention is to have a special edition ready for publication before the end of 2013.

Author Information and help:

Authors are referred to the website at www.springer.com/journal/10686. You will need to register.

Inside the window on the right hand side "For authors and editors" go to "Instructions for Authors" where there is information on how to construct a manuscript. Documents in a variety of formats are allowed including LaTeX (but NOT PDF).

Latex macro for allowing mathematical content can be obtained from http://www.springer.com/cda/content/document/cda_downloaddocument/LaTeX.zip?SGWID=0-0-45-468198-0

Submissions:

Submissions associated with the workshop should be submitted on line (see right hand panel of website again) and these will be passed on to me to start the refereeing process. Please email me when you make your submission so I can keep a separate track.

Submission deadline: 30 June 2013.

Please choose the following article type on submission: SI: HSO

Thanks for your involvement and I look forward to seeing a number of calibration papers.

Anthony Marston
