
Chapter 8. Change record

Version 1.1, 28 February 2007

- Third order wavelength range of spectrometer changed consistently in the manual to 55-72 microns.
- Correction in Section 3.5.7: the SED mode uses the "Nyquist sampling" and not the "high-sampling" density.
- Chopper throw in Section 4.2.2 (Range spectroscopy) changed to 1,3 and 6 arcmin.
