

Introduction to Splinter E: Calibration in other observatories and cross- calibration

Herschel Calibration Workshop #2
CSIC, Madrid, 6-8 February 2008

Sarah Leeks
Herschel Science Centre
Science Operations Development Division
Research and Scientific Support Department

HERSCHEL SPACE
OBSERVATORY

OBJECTIVES of this splinter

- To learn from the knowledge acquired and experience in calibration from other instruments/observatories operating at similar wavelength ranges
- To discuss and devise a strategy for cross-calibration, including the exchange of information and data
