

Herschel SDP Initial Results presentations programme
Thursday 17 December 2009

Session 1 - Chair: P. Garcia-Lario

09:20	10m	P. Garcia-Lario	Welcome and practicalities
09:30	20m	G. Pilbratt	Mission overview and future outlook
09:50	20m	A. Poglitsch	PACS update status and lessons learned
10:10	20m	M. Griffin	SPIRE update status and lessons learned
10:30	20m	F. Helmich	HIFI update status and way forward
10:50	30m	coffee break	

Session 2 - Chair: G. Pilbratt

11:20	20m	S. Oliver	Herschel multi-tiered extragalactic survey
11:40	20m	D. Lutz	PACS evolutionary probe
12:00	15m	S. Eales	Herschel ATLAS
12:15	15m	C. Leipski	The dusty young universe
12:30	60m	lunch break	

Session 3 - Chair: P. Barthel

13:30	20m	A. Tielens	The promise of HIFI
13:50	15m	P. Hartog	Water and related chemistry in the solar system
14:05	15m	E. van Dishoeck	Water in star-forming regions
14:20	20m	S. Molinari	Hi_GAL
14:40	20m	E. Egami	Herschel lensing survey
15:00	15m	J. Davies	Virgo cluster survey
15:15	15m	G. Smith	Galaxy transformation in clusters
15:30	20m	A. Edge	Brightest cluster galaxies in cool core clusters
15:50	30m	coffee break	

Session 4 - Chair: J. Fischer

16:20	20m	A. Boselli	Herschel Reference Survey
16:40	15m	P. van der Werf	HerCULES
16:55	20m	E. Sturm	The SHINING era of FIR extragalactic spectroscopy
17:15	20m	R. Kennicutt	KINGFISH
17:35	20m	S. Madden	ISM in low metallicity galaxies
18:30		buses leave for Madrid	

Herschel SDP Initial Results presentations programme

Friday 18 December 2009

Session 5 - Chair: P. Harvey

09:20	10m	P. Garcia-Lario	Announcements
09:30	20m	C. Wilson	ISM in nearby galaxies
09:50	20m	M. Meixner	Agents of galaxy evolution in the Magellanic Clouds
10:10	15m	M. Juvela	Cold cores
10:25	20m	P. André	Gould Belt survey
10:45	15m	O. Krause	The earliest phases of star formation
11:00	30m	<i>coffee break</i>	

Session 6 - Chair: J. Cernicharo

11:30	15m	F. Motte (S. Bontemps)	Imaging of OB young stellar objects
11:45	15m	B. Ali (O. Krause)	Orion protostar survey
12:00	15m	M. Groenewegen	MESS
12:15	15m	L. Decin/M. Barlow	Spectroscopy results MESS
12:30	15m	A. Abergel	Evolution of interstellar dust
12:45	15m	J. Green	Embedded protostar and Herbig Ae disk
13:00	60m	<i>lunch break</i>	

Session 7 - Chair: M. Harwit

14:00	15m	G. Meeus	Gas in protoplanetary disks
14:15	15m	G. Olofsson	Stellar disk evolution
14:30	15m	C. Eiroa (D. Fedele)	DUNES
14:45	15m	B. Matthews (J. Greaves)	DEBRIS
15:00	15m	T. Muller	Trans-Neptunian objects are cool
15:15	10m	M. Harwit	Initial impressions
15:25	5m	G. Pilbratt	Concluding words and farewell

16:00 buses leave for Madrid/Barajas airport
